

The

Eyecare your family can trust!

Summer 2006

Absolute View

Your Pediatric and Family Eyecare Specialists

Say goodbye to dry!

Our goal at Absolute Vision Care is to bring you products and services that are the best in the eyecare industry. We are now prescribing and dispensing the new state of the art Acuvue Oasys brand contact lenses.

Many patients who have

previously been unable to wear contact lenses have experienced success with this new lens material. Absolute Vision Care is one of the first practices in the area to fit this technologically advanced contact lens.

What is your biggest contact lens challenge?

Frequent use of rewetting drops?

If you use rewetting drops once or twice a day you could be spending \$80 annually.

Long hours at the computer?

While working on a computer consistently the average person blinks 1/3 as often.

Are you affected by age-related issues?

As you age, discomfort while wearing contact lenses typically increases.

The Acuvue Oasys offers a breakthrough in new technology - HydraClear Plus that creates moist and smooth contact lenses. The Acuvue Oasys meets the demands of today's busy lifestyles. It feels like you

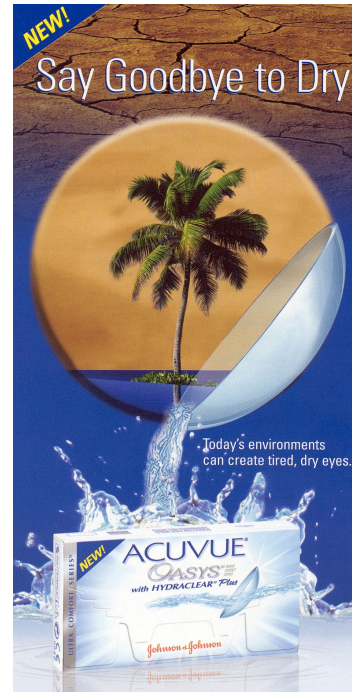

are wearing no lens at all with superior oxygen delivery for healthy looking eyes and

helps avoid the discomfort from tired or dry eyes.

The best contact lens ever worn

The majority of patients who tried it considered it "The best contact lens ever worn."

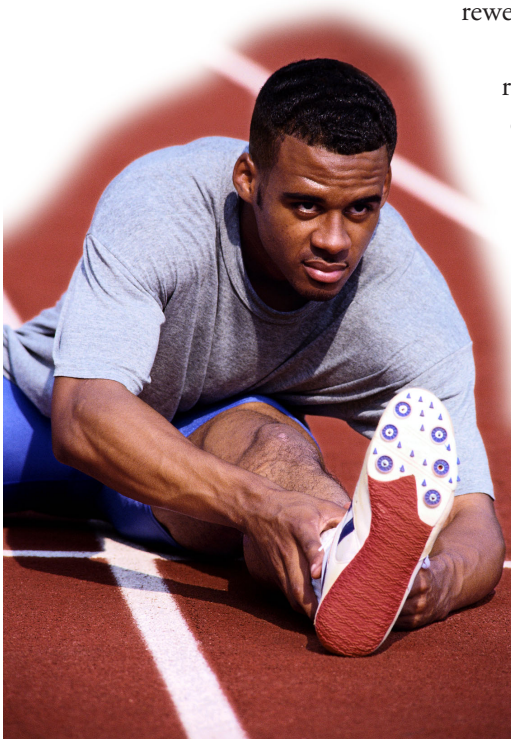

Welcome to the exceptional comfort of Acuvue Oasis!

Free trial offer
